FICHES

For preferential space heaters and preferential combination heaters, element of the fiche for a package of space heater, temperature control and solar device and a package of combination heater, temperature control and solar device, respectively, indicating the seasonal space heating energy efficiency of the package offered.

Water heating energy efficiency of combination heater	110 %
Declared Load Profile	19,07 XL
Solar contribution	$\left((1,1 * 110) - 0,1 \right) \times 1,59 - 15 - 110$ = + 51 %
Water heating energy efficiency of package under average climate	161 %
Water heating energy efficiency class of package under average climate	A++

The energy efficiency of the package of products provided for in this fiche may not correspond to its actual energy efficiency once installed in a building, as the efficiency is influenced by further factors such as heat loss in the distribution system and the dimensioning of the products in relation to building size and characteristics.
